localLINUX Virtualization Engineer DJ Gillit featured speaker at the 2009 Milsoft Users Conference

Lubbock - localLINUX, a locally-owned firm offering technology consultation specializing in VMware solutions recently spoke at the 2009 Milsoft Users Conference in San Antonio, Texas.

DJ Gillit (Virtualization Engineer) and Michael Strong (COO) spoke at the Disaster Recovery and System Redundancy Roundtable on Tuesday afternoon. Mr. Gillit presented on today's industry specific solutions to disaster recovery and business continuity problems.

This was an outstanding opportunity to showcase localLINUX's commitment to information security and data preservation, says DJ Gillit, Virtualization Engineer.

"Disaster Recovery and High Availability are challenges for any business, cooperative or municipality whose core business functions cannot be disrupted," he says. "Our discussions focused on the benefits of highly available server environments and the advantages of virtualization solutions using VMware. I'd like to thank everyone who attended the roundtable, and extend a special thanks to those who made it possible."
