February 3, 2010

**localLINUX Virtualization Engineer DJ Gillit completes VMware Certified Professional Training.**

Lubbock - localLINUX, a locally-owned firm offering technology consultation specializing in VMware solutions bolsters its commitment to quality by certifying technicians.

DJ Gillit (Virtualization Engineer) recently completed his VMware Certified Professional Examination on the vSphere 4 product line and is now VCP Certified. Mr. Gillit completed his certifications on the vSphere products in Lubbock and has already gone on to complete several new virtualization projects for enterprise clientele.

This certification demonstrates to our clientele the level of commitment to quality and professional solutions we have at localLINUX, says DJ Gillit, Virtualization Engineer.

“Virtualization including Disaster Recovery, High Availability and Thin Clients present challenges for new and growing businesses,” he says. “Our certifications and commitments to quality services and solutions position us to support these challenges and opportunities. These certifications ensure that our clients continue to receive quality solutions.”

Located at 5502 58<sup>th</sup> Street, Suite 400, in Lubbock, TX, localLINUX can be found on the Web at: [www.locallinux.com](http://www.locallinux.com)

localLINUX is a VMware Solutions Provider, VMware Service Provider, VMware Professional Partner & VCP Certified
